

LORENZATELIERS URBANISATION_ARCHITECTURE_DESIGN.

- Presently works out of the two business locations of INNSBRUCK and VIENNA with approx. 25 employees
- Master plans, project development and building planning right up to the process of handing them over are based on ethical standards, a humanistic worldview and holistic answerability.
- A versatile, international team places the greatest importance on applying an extraordinary effort to the assigned tasks.
- Objectives are respectful, interdisciplinary cooperation with the best experts, and among others, the achievement of long lasting quality and timeless architecture: It is not the 'style' that has priority, but instead finding optimal solutions for complex tasks in unique locations.
- Competent construction management always complements the professional planning.
- **LORENZATELIERS** was founded in 1980 in Innsbruck by Peter Lorenz, and since 1991 also has an office in Vienna. Architect DI Giulia Decorti has been a partner since 2014.
